**TO IMPROVE HOSPITAL FOR THE INSANE**

Board of Commissioners of State Institutions Makes Provision For Two Clinical Assistants and a Visiting Staff.

Special to The Journal.  
Tallahassee, Feb. 9.—The board of commissioners of state institutions yesterday made provision for two notable improvements in the medical service at the Florida Hospital for the Insane at Chattahoochee.

Dr. James H. Randolph, the newly elected chief physician, was present to confer with the board as to the needs of that department, and it was developed that the doctor has conceived a very high standard for the medical staff of the hospital to attain and that the board will do all in its power to bring the service of that institution up to the highest efficiency.

The board resolved that after April 1st, 1909, when Dr. Randolph will assume his new position, there shall be employed at the hospital for the insane, in addition to the chief physician and his assistant, two clinical assistants, who shall be graduates of reputable medical schools and whose compensation shall be \$30 per month and board. These clinical assistants, who will be selected with utmost care, will be always under the supervision and direction of the regular physicians, and are expected to add greatly to the care and attention given to patients. The assistants, on the other hand, will receive experience of great value for their professional careers, and it is believed the positions will be sought by the most competent medical graduates.

The board also provided that after April 1st there shall be appointed a visiting staff for the Florida hospital for the insane, to consist of not more than seven reputable Florida physicians, each of whom shall be a specialist in the particular field for which he is appointed. It is proposed that on the visiting staff there shall be at least one member eminent in surgery, one a specialist in diseases of the eye, ear, nose and throat, one gynecologist, one a genito-urinary specialist, etc. For this staff the board wants none but the best doctors who can be had. Constant effort will be made to keep the standard so high that membership on this staff will be considered a signal honor by the most eminent physicians. The plan is, that members of the visiting staff shall visit the hospital from time to time to inspect conditions there, to examine patients, make suggestions and in various manners consult and co-operate with the resident physicians for the betterment of patients at the hospital.

The visiting staff will serve without compensation, but their traveling expenses and entertainment while at the hospital will be defrayed by the state.

**POOR BOXES AT ST. JOSEPH'S WERE ROBBED**

Burglars Broke Into the Church About Midnight and Got Money.

REAR DOOR WAS ALMOST TORN FROM ITS HINGES AND ALL THE CONTRIBUTION BOXES BROKEN INTO—FATHER HARTKOFF SAW THREE WHITE MEN COME FROM THE CHURCH.

Three burglars, thought to be white men, broke into St. Joseph's church about midnight last night and robbed the contribution boxes of all the money they contained. The theft is probably the first time in the history of the city where a church has been robbed.

The men almost tore the rear door from its hinges in gaining entrance. They used an axe, an extra handle and a screw driver, and the noise they made was heard by Father Hartkoff. After gaining admission they proceeded to break open the poor box, St. Michael's box and Sacred Heart box, as well as other contribution boxes and rifled them of their contents.

Father Hartkoff hearing the noise went out and reached the church door just as the burglars were leaving. When he asked one of the men what they were doing they replied nothing, only looking about the church and then went off hurriedly.

Father Hartkoff is satisfied that the men numbered three and that they were white men.

St. Michael's Also Robbed.  
At a late hour it was learned that the contribution boxes at St. Michael's had been broken open and robbed of their contents. It is presumed that the robberies were by the same parties.

A telegram from F. A. Witherell, of Panama City, owner of the schooner Cleopatra, which left that place Jan. 29 for Pensacola, was received here yesterday, inquiring if anything was known concerning the whereabouts of the vessel.

The telegram also stated that the schooner was sighted in the gulf Feb. 7, but nothing has been heard of her since that time.

The schooner, which was loaded with naval stores for the Consolidated Naval Stores Co., is about 16 tons net and carried a crew of two men. It is believed by some of the parties interested in the vessel that she has put in at St. Joseph's bay.

**"STOMACH CLOCK"**

Spoonful Said to Excite Ravenous Appetite and Digest Any Meal Eaten—Cut Out and Save.

Dr. Sparr, the noted stomach specialist, says that any healthy person can tell the time of day by their stomach. He explains by saying that it is a subconscious feeling due to the activity of the healthy nerves of the stomach calling for food. He says dyspepsia or people with any stomach disorder cannot tell time by an hour or two. The symptoms are heavy feeling and distress after eating, hickie appetite, heartburn, heart palpitation, headache, dizziness, languor, weakness and nervousness. No better treatment can be found than this, relieving quickly and supplying plenty of digestive fluids: Get two ounces of syrup of ginger, two ounces of essence of peppermint and one ounce compound essence cardiol. Mix, shake thoroughly and take one or two spoonfuls after each meal. A spoonful before eating will induce a good appetite. Very fine for old people and children with weak, sickly stomachs, and can be used freely without creating any drug habit.

If unable to obtain these ingredients from your regular drug store you can readily obtain them at The Crystal Pharmacy.

**COMMERCE COMMISSION GIVEN POWER**

SENATOR ELKINS, CHAIRMAN OF COMMITTEE ON INTERSTATE COMMERCE, SUBMITS REPORT, IN WHICH IT IS RECOMMENDED THE COMMISSION BE GIVEN POWER TO SUSPEND A RATE.

By Associated Press.

Washington, Feb. 9.—Senator Elkins, chairman of the committee on interstate commerce, today presented to the senate his report on the Fulton bill authorizing the interstate commerce commission to suspend a proposed change of rates by railroads upon receiving a protest from any shipper or any numbers of shippers which bill was reported adversely several weeks ago. The report says:

"The conferring upon the committee the power to suspend a rate advanced either upon the filing of a protest by a shipper or in the discretion of the commission, taken in connection with the provision of the statute which gives to the commission the power to fix a rate and to designate the time, not longer than two years, that it should remain in force, would ultimately turn over to that administrative body the function of initiating the rates of the entire country."

John Johnson for contempt of court, was fined \$25 and costs Saturday.

The existing law permits any shippers to protest any rate that has gone into one. The hearing on the protest is made without formal pleadings and the commission is authorized to determine the question whether the rate put in effect then by the carrier was a reasonable rate or not, and if not to make the rate reasonable.

So far, in the practical operation of the act of June 29, 1906, this provision of law has worked satisfactorily and but comparatively few of the decisions of the commission have been contested by the carriers. Under existing law both parties are protected.

If the decision is that the rate is unreasonable a judgment may be rendered in favor of the protestant for the difference between what the commission determines is a reasonable rate and the rate fixed by the carrier with 6 per cent. interest from the date of the overcharge. If, on the other hand, this amendment should receive the approval of congress and the rate filed by the carriers should be protested and then suspended by the commission (in the multiplicity of duties imposed upon that tribunal) considerable time would elapse before a final determination of the question could be reached. During that period the carrier would be receiving only the old rate and if the commission finally decided that the advance was reasonable, no reparation in any way could be awarded."

**SPECIAL PRAYERS FOR TAFT.**

New York, Feb. 9.—Special prayers for William H. Taft, his cabinet and the federal administration will be said at a mass meeting which will be held at the Broadway tabernacle on the evening of March 4, the day of inauguration. It is expected that one thousand men will attend the meeting.

**Stop Women And Consider**

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

**MRS. PINKHAM'S STANDING INVITATION:**

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

New York, Feb. 9.—The first public demonstration of the "new Maxim gun silencer" was given here today by its inventor, Hiram Percy Maxim, before representatives of the press and a number of prominent gun manufacturers and military men. United States army rifles and other powerful guns were fired with the anti-noise attachment and the resultant report was scarcely louder than a mild handclap.
